Lynn Hutchins, presenter
Dr. Richard Shuntich, mentor
Demian Gover, discussant

The End
The Honors Program seeks to provide intellectually stimulating courses within the general education program for students with excellent academic backgrounds and/or exceptional potential for superior performance in college. The 28 hours of courses that make up the Honors Program all meet requirements of the University's four-year programs.

Advantages to participants of the Honors Program include opportunities to experience an innovative curriculum developed by first-rate instructors in the context of small group sessions. Small classes allow abundant opportunities for dialogue with the instructors and with the other honors students. From such experiences honors students further develop their communication skills, problem solving abilities, and analytical reasoning abilities.

In addition to advantages such as these, students also have opportunities for participation in extracurricular activities such as trips to large metropolitan areas such as Washington, D.C., New York City and Chicago. Students also participate in state, regional and national honors conferences. Other advantages include retreats, monthly suppers, and cultural excursions to plays, symphony concerts, art museums and ballets.

The criteria for selection to the Honors Program are a high school cumulative grade point average of at least 3.5 on a 4.0 scale, completion of the Kentucky pre-college curriculum or equivalent, and a composite score on the American College Test (ACT) of at least 26 with no individual subject score below 21. Additional information can be obtained from Dr. Bonnie Gray, the director of the Honors Program, by calling (606) 622-2924 or by writing us at the following address:
